What can this app do?

APP Interface VAT monthly statement for eCDF is an app enabling the export of data required by the Luxemburgish tax authorities with additional specific fields and format. It is exporting the data of the VAT Statement from Business Central, fulfilling the logic of the eCDF portal.

In general, you have to upload your data onto the eCDF portal to do your monthly vat statement. On the one hand, you can enter your data manually. On the other hand, the eCDF portal provides the possibility to upload xml file with a predefined structure and format.

Our app enables you to directly export the data out of your Business Central and puts the data in the xml file the correct way. So you are able to upload the XML file in the eCDF portal without entering your data manually.
